Marsh's Map

Brief Study Guide

Marsh's Map

Imagine this: You are transported back in time, to an era where the world was whole - Pangaea, a colossal landmass stretching endlessly, teeming with secrets, and untouched by the hands of continental drift. The air hums with an eerie silence, broken only by the faint echoes of creatures long gone. Somewhere in the stillness, you sense it, the low rumble of ancient giants stirring in their long-forgotten habitats. You are not just here to observe; you are here to uncover. Somewhere amidst this barren expanse, dinosaurs roam unseen, waiting for those sharp enough to uncover their hidden trails.

"They leave no footprints, only whispers. Their presence, a puzzle. Can you find them before they vanish forever?"

Armed with cryptic clues and your own wit, you must embark on a thrilling expedition across Pangaea. Your mission is to locate the ancient beasts hidden across the BMI campus, decipher their unique habitats, and precisely place them on the map of Pangaea, restoring their rightful homes.

Different dinosaurs will inhabit distinct habitats, and each discovery will challenge your understanding of their world. You'll need to analyze the clues carefully to determine where these prehistoric creatures belong, piecing together their lost ecosystem. The more dinosaurs you locate and correctly place, the closer you'll come to unlocking the full picture of Pangaea's ancient glory.

"Marsh's Map" beckons adventurous delegates who are captivated by dinosaurs, exploration, and unravelling mysteries. With intuition as your compass and knowledge as your weapon, how many dinosaurs can you find, and will you claim your place among the great explorers of time?

Teams that emerge victorious in “Marsh’s Map” will be awarded the “**Regen**” perk, a valuable advantage granting them extra game health or resources in SK's Odyssey. This perk gives the leverage needed to make decisions freely and gives teams a crucial safety net during crisis moments, ensuring they can weather unexpected challenges. To redeem it, teams must present the perk token to the Executive Council for approval. Once used, it cannot be activated again, so teams should consider when to use it for maximum impact. This could be the lifeline that keeps their journey alive and thriving in the face of unexpected challenges!
